Alternative methods of treatment, if any, have been explained to me, as have been the benefits and risks of each. We have also discussed the disadvantages, if any, of not having the operation or procedure. I am advised that though good results are expected, complications cannot be anticipated and that therefore there can be no guarantee, either expressed or implied, as to the results of the surgery or cure. I understand there is a remote risk of death or serious disability with any surgical procedure. The doctor has answered all my questions.

The doctor has explained to me the most *likely* complications or problems that might occur in this operation and during the healing period, *and I understand them*. The doctor has offered to detail the less likely complications which, even if rare, could occur. Please check one:

## LETTER OF UNDERSTANDING

This Letter of Understanding is intended to provide you the necessary information on preparation for payment of fees associated with Elective/Cosmetic surgery.

\_\_\_\_ Medicare will only pay for services that it determines to be "reasonable and necessary" under Section 1862 (a)(1) of the Social Security Act. If Medicare determines that a particular service, although it would otherwise be covered, is not "reasonable and necessary" under Medicare program standards, Medicare will deny or reduce payment for that service. I believe, in your case, Medicare **will deny** payment for the above listed procedures for the following reason: **That the cosmetic procedures that you have elected to have are not covered by Medicare.**

\_\_\_\_ Your insurance company will only pay for services that it determines to be "reasonable and necessary". If your insurance company determines that a particular service, although it would otherwise be covered, is not "reasonable and necessary" under their program standards, then your insurance company will deny or reduce payment for that service. I believe, in your case, that your insurance company **will deny** payment for the above listed procedures for the following reason: **That the cosmetic procedures that you have elected to have as listed above are not covered by your plan.**

Please be informed that the cosmetic surgical procedures that your doctor has recommended may result in three separate fees. Listed below are brief explanations of each fee and an **approximation of the amounts based upon estimated surgery time.**

1. **Surgeon Fee \$ \_\_\_\_\_** This fee represents the surgeons portion of your bill and is paid directly to the doctor's office at the time the surgery is scheduled. **Payment in full must be received seven (7) days prior to the surgery date.**

2. **Facility Fee \$ \_\_\_\_\_** This fee represents the hospital portion of your bill. The fee is dependent on actual time spent in the operating room. If your time runs over the original calculation you will be billed for the balance due for the elective surgery.

3. **Anesthesia Fee \$ \_\_\_\_\_** This fee represents the anesthesiologist portion of your bill. The fee is dependent on actual time spent in the operating room and type of anesthesia required. If your time runs over the original calculation you will be billed for the balance due for the elective surgery.

4. **TOTAL DUE: \_\_\_\_\_**

**PLEASE MAKE CHECK PAYABLE TO OCULOPLASTIC SURGERY, INC. FOR THE TOTAL DUE THE SURGEON. IF YOU ARE HAVING FUNCTIONAL SURGICAL PROCEDURES IN ADDITION TO ELECTIVE PROCEDURES YOU MAY BE BILLED FOR CO-PAYS AND/OR DEDUCTIBLES THAT ARE RELATED TO THE FUNCTIONAL PORTION OF THE SURGERY.**

I have read and understand my obligation concerning the fees associated with having surgery at the facility recommended by my physician or directed by my insurance company.

\_\_\_\_ *I certify that I have read and that I understand this consent and that all blanks were filled in prior to my signature.*
